

CICM Orientation Day

On 7th August 2019, CICM was delighted to welcome our new students and their parents to our orientation day. The event included a warm welcome from our Dean, the associate dean of the faculty of medicine and the dean of the faculty of dentistry, as well as the board of directors from CICM. We hope all students will have a better understanding about studying at CICM, and be prepared for upcoming college life. Best of luck everyone!

CICM Student Council Committees

With the new academic year already in full throttle, CICM has formed a new student committee for 2019-2020. CICM student committee is a representative body consisting of students from different programs who work together to organize and manage all activities and affairs that happen at CICM. As students ourselves, we want to make sure that all students get a chance to experience other things the university has to offer apart from studying.

This year, there will be the usual activities including CICM camp to welcome new students to our college and ceremonies for our beloved seniors. The committee will also be encouraging our students to take part in other university-wide events. To shake things up this year, the committee is planning to introduce new activities as well.

Apart from all the activities, the committee also acts as a voice for CICM students regarding any issues or concerns that students may have during their time at the university. Last but not least, the members of the committee promise to do their best in working and taking care of all CICM students.
